

Dear Sirs,  
I am an XM Radio subscriber. I feel the XM service offers me the variety and choices that I cannot find on local radio stations. It is comparable to cable and satellite television. I choose pay for the entertainment that I want.

I urge you to reject the NAB's petition 04-160. Free enterprise is what our economy is based upon. You either provide the needed services or you will be out of business. Local radio stations will need to find a way to keep their listeners other than blocking the competition.

It is my choice, not the NAB's.

Thank you.

Lynda Smith
